# Excellent Products for Cleaning Excellence

ISS Facility Services is delighted to launch this, the Bunzl catalogue, which covers all of the products ISS will use to deliver Cleaning Excellence. The ISS Cleaning Excellence team, together with ISS Procurement Director Greg Robinson, have worked very hard in partnership with carefully chosen manufacturers and Bunzl to select an outstanding range of products.

Within the UK, ISS are privileged to provide a range of services to buildings old and new, from listed buildings to those that are at the leading edge of modern construction techniques and management systems. Our clients rightly have become more demanding and knowledgeable of our industry so it is vital that TOGETHER we continue to push the boundaries of best practice to deliver superior efficiency and results. ISS must be at the forefront of Cleaning Excellence in line with our strategy of delivering Single Service Excellence. Detailed in this brochure is a range of products that are "best in class" and will ensure that TOGETHER we achieve our goal.

We are pleased to take this opportunity to introduce our "sustainable" range of products that will contribute significantly in helping to reduce our own carbon footprint and that of our customers.

TOGETHER, we all have a responsibility to strictly adhere to this new product range in order that we may retain our position as an industry leader.

BUNZL
cleaning & hygiene supplies

# ISS and KIMBERLY-CLARK PROFESSIONAL* have been a team in the UK and Ireland for ten years.

There are many good reasons for the success that we have enjoyed together. One of them is that we share common values which have created a strong bond between our two companies. An important value that we share is our commitment and approach to sustainability.

## REDUCE TODAY, RESPECT TOMORROW*

### Recycled fibre is part of the solution

A mix of virgin and recycled fibre can make better performing towels with attributes that meet the demands and expectations of our customers. When less product is used, less has to be thrown away – and less fibre, packaging, energy and water are consumed overall.

### Technology is part of the solution

Our patented towel-making process requires up to 17% less fibre at source (compared to traditional processes). This technology creates absorbent towels that help you use less and waste less.

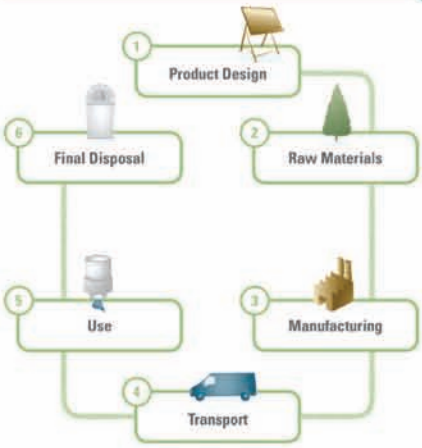
### Packaging is part of the solution

With unique packaging and palletisation techniques, we strive to maximise every square inch of loading space when our vehicles hit the road. This doesn't just help cut carbon emissions, it can also make handling and storage easier for customers.

### Manufacturing efficiency is part of the solution

Since 2005, our Corporation has made the following progress, on a global basis:

- Reduced total energy used by 6%
- Reduced CO2eq emissions per unit of production by 7%
- Reduced annual water used by 2.4 billion litres
- And in 2008 alone we diverted over a million tonnes of waste from landfill



Our approach to sustainability begins with the understanding that the way we use resources today shapes the world of tomorrow. This has led us to focus on reducing consumption at every stage of the product life cycle from design to disposal. Reduction is the key to lowering the environmental impact of our activities as well as those of customers. Kimberly-Clark is committed to responsible sourcing of raw materials and as a result 100% of our virgin pulp suppliers for Kimberly-Clark Europe are certified. For the fifth consecutive year, Kimberly-Clark is ranked No. 1 in the Personal Products category of the Dow Jones Sustainability World Indexes.

Each
Colour: Grey Fleck
Code: 044310

# 2: cleaning chemicals

## It's a building. And much, much more

A building is more than floors, windows and doors. It's more than a facility to house employees and equipment. It's a company's face to the world. And from the moment a visitor enters the front doors, the building needs to shine.

That's why ISS trusts Diversey to provide innovative, cost-effective cleaning solutions. Our total Cleaning Excellence package of cleaning chemicals, dilution systems, floor care equipment and range of support services enables ISS Facility Services to keep buildings cleaner.

ISS and Diversey are working closely together - our joint global coverage, sustainability expertise and operational capabilities allow for synergies, which enables Diversey to deliver the service that each and every person in ISS requires to help improve efficiency.

## Chemicals

At Diversey we have many environmentally-friendly products, developed and manufacturedaccording to our own best-in-class criteria. We test for performance, reduced environmental impact and enhanced safety.
These products include: washroom cleaners, floor cleaners, hard surface cleaners,odour control systems, wood/stone-care products, disinfectants, skin care products, specialty cleaners and TASKI floor care machines.

EXACT NC (Non Classified) Range

## Dispensing Technology

Our range of innovative dispensing technologies J-FLEX and QUATTRO SELECT dose precisely the right amount of concentrated products with cold tap water to make cleaning safer, whereas the EXACT range is a unique concentrated portion control system. All the Diversey systems available within this catalogue provide ISS with more cost effective and environmentally sensitive products when compared to standard dispensed or ready-to-use products.

## Sustainable Solutions

During the past 12 months Diversey have assisted ISS to reduce their carbon foot print by 36,000kg of Carbon Dioxide, 50,000 kg of plastic and by 3,200 kg of Cardboard. These reductions have been achieved by business units adopting the Diversey dispensing systems over standard 5lt and ready to use products.

At Diversey we believe solutions that protect the environment are good business practice. At the same time, they allow us to deliver on our responsibility to the wider community, a key component of the Diversey ethos.

### Moving from 2x5L Non Concentrate to 6x1L Concentrate

**SAVES**

- **250kg Carbon Dioxide..... the same as a trip from London to Paris!!**
- **A tenth of a lorry load of product**
- **99kg plastic**
- **53kg cardboard**

### Dispensing Technology

- **Reduces Waste**
- **Reduces Chemical Footprint**
- **Reduces Water & Energy Use**

**ISS in 2009 reduced their carbon footprint by moving to Exact System from normal 5L product**

**Carbon Dioxide - 36,000kg**

**Plastic - 50,000kg**

**Cardboard - 3,200kg**

The cleaning products in this catalogue are biodegradable, as required by law.

QUATTROSELECT

QUATTROSELECT

TASKI

# Highly efficient dilution platform for medium to large size building care operations

Searching for a solution for cleaning your large site, which requires simple implementation, full control, safety and speed?

Whatever your needs are for a large site, QuattroSelect® is the solution! Designed for multiple users and different product requirements; QuattroSelect® includes trigger sprays, buckets and/or scrubber driers filling at different dilution rates and speed.

With QuattroSelect®, Building Care cleaning has never been so easy, safe and fast!

## Improves your Efficiency

The QuattroSelect® dilution station always delivers the right dilution, so there is no unnecessary rework due to over or under dosing. TASKI QuattroSelect® also delivers optimal filling speed with low flow bottle filling and high flow bucket and scrubber drier filling.

## Increases your Safety

QuattroSelect® is a closed system, so there is no possibility of contact between concentrated chemicals and your employees. Additionally, QuattroSelect® can be fully locked.

## Improves your Environmental Footprint

Two 2.5L QuattroSelect® pouches are capable of delivering up to 2,500 liters of the same product in ready to use format. This means savings from transporting and storing the product and also less packaging waste, so kinder for the environment. Daily cleaning range also available with EU flower certified concentrate.

## Simplifies your operation

The QuattroSelect® has the option of four concentrated chemicals with four different dilutions. All chemicals and accessories are colour coded, easy to operate and extremely reliable.

**Taski Sani 100 QS**
Daily Neutral Washroom Cleaner.
Case: 2
Size: 2.5 Litre
Code: 037642

**Taski Sani Cid QS**
Daily Acidic Washroom Cleaner.
Case: 2
Size: 2.5 Litre
Code: 037644

**Taski Sani Calc QS**
Disinfectant Washroom Cleaner.

Code: 050342

**Taski Jontec Tensol QS**
Heavy Duty Floor Cleaner.
Case: 2
Size: 2.5 Litre
Code: 050343

## Benefits of Dilution Control

- **100% control of consumption and cost**
  Dilution guarantees predictable consumption and costs and always the right dilution rates
- **100% Safe**
  Dilution guarantees that your employees will not get into contact with the concentrated chemicals

Diversey
for a cleaner, healthier future

## WASHROOM

**1 Lifeguard Limescale Remover**
Lifeguard Limescale Remover's acid based formula has been designed to swiftly remove grime and limescale from all washable surfaces in toilets, washrooms, showers, changing rooms and swimming pools.
Use neat to remove limescale.
Dilute 100:1 to prevent further limescale build-up.
Case: 12
Size: 1 Litre
Code: 037058

Each
Size: 1 Litre
Code: 037058S

**2 Lifeguard 3 Way**
Tough cleaner, disinfectant and deodoriser that quickly removes limescale, rust and uric acid stains on toilet bowls and urinals. Safe to use on stainless steel and chrome plate. RIPHH certified.
Case: 12
Size: 1 Litre
Code: 037063

Each
Size: 1 Litre
Code: 037063S

**4 Grout Restorer**
Chlorinated grout restorer which removes staining caused by mould and mildew. Improves appearance of washroom grouting. Foaming application for good cling and extended contact time.
Case: 6
Size: 750ml
Code: 037590

**3 Lifeguard Toilet Descaler**
Powerful double acid descaler, disinfectant and freshener will rapidly remove dirt and limescale build-up from toilet bowls and urinals. Especially effective in hard water areas. Do not use on stainless steel. Offset nozzle allows safe application straight to the area to be cleaned.
Case: 12
Size: 1 Litre
Code: 037073

Each
Size: 1 Litre
Code: 037073S

## DISINFECTANTS

**5 Oxivir Spray**
A powerful disinfectant with excellent bactericidal, virucidal, fungicidal and sporocidal activity. The unique formulation is based on an innovative Accelerated Hydrogen Peroxide technology that effectively destroys pathogens such as MRSA, Hepatitis C and Norovirus. Oxivir Spray is ideal for dealing with contaminated body spillages, controlling pathogen outbreaks and cleaning high risk infection areas.
Case: 6
Size: 750ml
Code: 037121

## WASHROOM

**1 J Flex Taski Sani Cid**
Daily use acidic washroom cleaner. Citric acid based formula for effective cleaning in hard water areas. Super concentrate product, with built in dilution control.
Each
Size: 1.5 Litre
Code: 034319

**2 Taski Sanicid W1D Cubifill**
Daily use acidic washroom cleaner. Citric acid based formula for effective cleaning in hard water areas. Cubifill refill for 037576.
Each
Size: 5 Litre
Code: 037578

**3 Taski Sanicid W1D Concentrate Dosing Bottle**
Daily use acidic washroom cleaner. Citric acid based formula for effective cleaning in hard water areas. Super concentrate product, with built in dosing cap.
Case: 6 x 1 Litre
Code: 037576

**See page 23 for Trigger Spray Bottles**

**4 Sani 100 Concentrate NC Dosing Bottle**
Neutral daily use washroom cleaner. Safe on all washable surfaces. Super concentrate product, with built in dosing cap.
Case: 6 x 1 Litre
Code: 037588

Each
Size: 1 Litre
Code: 037588S

**5 Sani 100 Concentrate NC Cubifill**
Neutral daily use washroom cleaner. Safe on all washable surfaces.
Cubifill refill for 057588.
Each
Size: 5 Litre
Code: 037589

Size: 500ml capacity.
Case: 5
Code: 019521
Each
Code: 019521S

## LAUNDRY

**9 Comfort Regular Fabric Conditioner**
Traditional fragranced fabric conditioner for professional use.
Case: 2 x 5 Litre
Code: 032027

**10 Horizon Auto Biological Powder**
A quality spray dried powder. Free flowing to prevent clogging. Excellent cleaning results.
Each
Size: 120 wash
Code: 032022

# Sustainability and Eco-efficiency

**ISS have been working with Vileda Professional to develop solutions that fulfil the demanding requirements of these two areas.**

**For example all Vileda Professional's microfibre cloths:**

Can be used without cleaning chemicals (reductions of 80% if chemicals are required)

Last longer than traditional cloths reducing landfill costs

Can be hand rinsed and machine washed at least 50 times

Are produced without the use of chemicals and complying with ISO 9001 &14001 Systems

**The Vileda Professional microfibre cloth range includes:**

**Evolon 170 (Durable)**
Can be rinsed or machine washed over 50 times
Strong and very low linting

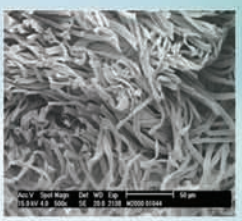
**Breazy (Semi-Durable)**
Unique wave-structure
40% better dirt pick-up than comparable cloths

**MicroRoll (Semi-Disposable)**
Microfibre cleaning at a low price
99.99% removal of bacteria, ideal for hygiene sensitive areas

# Why choose a Microfibre cloth?

**Microfibres are 100 x finer than a human hair. This fibre fineness is the secret behind the outstanding results:**

Typical Non – Woven Fibre



Microfibre

**Improved Performance - Microfibres**

Microfibres penetrate into surfaces at a finer level removing more dirt and grease

Create a larger surface area giving more contact with the surface being cleaned

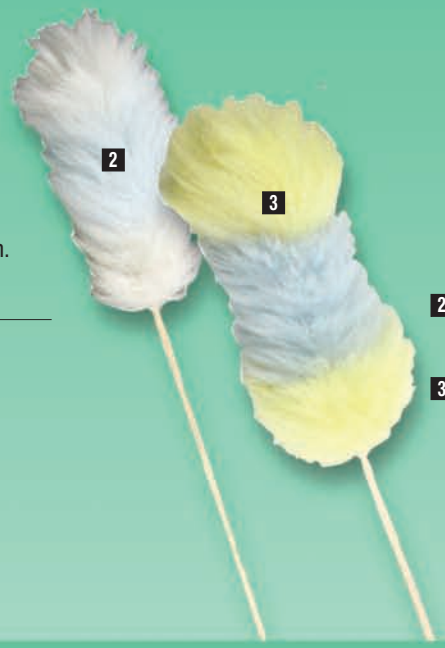
**Time Savings – Cost in Use**

Small pores collect and keep water inside re-releasing only small amounts back onto the surface being cleaned

This ensures a streak free result whilst saving time as a buffing wipe is not required

## DUSTERS

**1 Yellow Dusters**
100% cotton duster: soft finish.
Size: 20" x 14"
Pack: 10
Code: 000003



**Lambswool Duster Standard**
Made from genuine sheepskin.
Each
2 Size: 2'
Code: 000080
Each
3 Size: 4'
Code: 000081

## TRADITIONAL

**4 Stockinette Dishcloth Regular**
Traditional cleaning cloth with the added benefit of colour coded threaded edge.
Pack: 10
Size: 14 x 11"
Code: 001180 Blue
Code: 001181 Green
Code: 001182 Red
Code: 001183 Yellow

**5 Scrim Cloth**
Standard all linen cloth for streak free glass cleaning.
Each
Size: 36"
Code: 029080

## WET WIPING

**6 Cleanline Sanitising Hard Surface Wipe**
200 sheet handy tub. Cleans hands and surfaces of stubborn grease and grime. Anti bacterial wipe ideal for areas where washroom facilities are limited.
Case: 4
Size: 200 Wipes

**1 Evolon 170 Microfibre Cloth**
High quality endless fibre-microfibre cloth. Evolon is manufactured using 100% microfibres which provide streak free cleaning. Can be laundered up to 50 times.
Pack: 10
Code: 001316 Blue
Code: 001317 Green
Code: 001318 Red
Code: 001319 Yellow

**2 Breazy Microfibre Cloth**
A revolutionary new cloth designed to provide the high cleaning performance of microfibre but economical enough to use as a semi disposable. Can be laundered up to 20 times.
Pack: 25
Size: 35 x 35.5cm
Code: 001331 Blue
Code: 001334 Green
Code: 001332 Red
Code: 001333 Yellow

**3 Micro Roll**
Ideal combination of a semi-disposable and microfibre cloth on perforated roll. Can be laundered up to 10 times.
Case: 4
Size: 200 Sheet Roll
Code: 001336 Blue
Code: 001337 Green
Code: 001338 Red
Code: 001339 Yellow
Code: 001340 White

**Micro Roll**
Each
Size: 200 Sheet Roll
Code: 001336S Blue
Code: 001337S Green
Code: 001338S Red
Code: 001339S Yellow
Code: 001340S White

**4 WYPALL* Microfibre Cloth**
Only WYPALL* Microfibre Cloths are treated with Microban® Antimicrobial Product Protection. Absorbs 8 times its weight in liquid and can be laundered up to 300 times. Reduces annual cleaning costs and improves efficiency / reduces chemical use.
Pack: 6, Case: 4
Size: 40cm x 40cm
Code: 001351 Blue
Code: 001352 Green
Code: 001353 Red
Code: 001354 Yellow

**1 WYPALL* X80 Cleaning Cloth**
Colour coded cloths to allow segregation of tasks, avoiding the risk of cross-contamination. For food spills and cleaning these cloths are ideal. Made with HYDROKNIT* Material, they're fast absorbing, tear-resistant and offer exceptionally high performance all day long.

UltraSpeed 25 Litre

# SYRSorb

# Cleaner, Faster, Smarter Floor Cleaning

## Cleaner, Safer Floors and Mops

- SYRSorb picks up 25% more dirt
- Releases even more dirt ( 36% )
- Removes 25% more grease and oil
- Absorbs almost 100% more water
- Also wrings out more

## INDEPENDENT LABORATORY TESTS - THE FACTS -

**Compared to pre-washed cotton/twine mops, new SYRSorb Mops are Cleaner, Faster and Smarter every time.**

**A WINNER ALL ROUND**

## Floors Dry Faster

## *Productivity Shoots up...and you save money every time !*

- Lighter - easier and quicker to use
- More absorbent - less drying time
- Picks up more dirt/grease - cleaner floors, first time every time

SYRSorb not only improves productivity and reduce costs, you actually save money - guaranteed.

**SYR offer a training & support package via their Taskforce Team, who can be contacted on 01384 421412**

**4 Trolley Folding NX2001**
Ideal for waste collection or bed linen.
Size: 200 Litre
Each
Code: 178902

# 7: waste management

Rubbermaid Commercial Products

## Recycling solutions

### Why does recycling matter?

Every year, the UK produces 38 million tonnes of household, office and school waste. Too much of this material is still being sent to landfill sites or being incinerated. Yet it has been estimated that up to 80% of the contents of our dustbins could be recycled or composted.

### How to implement a recycling program?

1. Identify all generated waste and recycling streams
2. Set objectives and select recycling solutions and waste contractor
3. Implement, train and communicate recycling program

### How can Rubbermaid help recycle?

Rubbermaid offers a wide range of quality and durable products to help you actively manage and recycle your waste.

**Rubbermaid commitment**

- Zero factory emissions on all Rubbermaid products made in the USA.
- 100% of our nonconforming products are reground and reused
- Glutton range contains 30% post consumer recycled resin

opalion®

Established in 1981, **Opalion Plastics Limited** is an environmentally conscious British company that takes pride in supplying flexible packaging products of the highest standard at a competitive price. We are able to offer almost the full range of flexible packaging products including:

- Black, Clear and Coloured Refuse Sacks & Compactor Sacks
- Clear and Coloured Bin Liners
- Oxo-biodegradable Refuse Sacks & Bin Liners
- Clinical Waste Sacks – UN Certified
- White Aprons on a roll

Working in close partnership with ISS Facility Services, we are committed to minimising the environmental impact of our product and over the last couple of years, we have:

- Reduced the amount of plastic used by 25% by rationalising the product range and eliminating unnecessary high specification products.
- Maximised the use of recycled plastic – although the recycled material content varies between products, overall the core product range is manufactured from over 80% recycled plastic reducing the carbon footprint significantly.

The core products listed in this section cater for the majority of the requirement throughout ISS. However numerous other products are available within the range. If your requirements are not met by the items listed, we at Opalion would be delighted to provide assistance and advice.

Please refer to the contact list in this catalogue to obtain further help.

# 8: PPE & safety

This selection of personal protective equipment (PPE) will provide protection for core cleaning jobs, but there are situations when different PPE is needed and must be used. This could include ear defenders, hard hats, safety harnesses, specialist gloves, safety shoes, high visibility clothing or waterproof overalls etc.

Your regional office will inform you of the procedure to order PPE not in this brochure.

Advice regarding the selection of PPE is available from your Health and Safety Advisor.

The ISS Health, Safety and Environment sharepoint site - http://sharepoint.uk.issworld.com/departments/hse/default.aspx contains further details of the available PPE, advice regarding the selection of PPE and approved suppliers.
