

# Workflow: Laundry system

## Workflow

- 1) Sort mops and cloths
- 2) Read the washing instruction label for the relevant product
- 3) Put the laundry into the washing machine. OBS! Only the quantity that the washing machine can take – filling degree e.g. 7 kg
- 4) Select the right washing program
- 5) Start the program

## Tips

- Do not mix micro-fiber mops or cloths with other articles for washing
- No softener for micro-fiber material
- Clean the machine after wash
