

## Why S.A.F.E.?

No one is more equipped than JohnsonDiversey to help you protect your business from the 9 million slip and fall accidents that occur each year in the U.S.

According to the Liberty Mutual Workplace Safety Index, more than \$5 billion is spent annually on same level falls, and by 2020, the government could be spending in excess of \$30 billion on elderly slip falls. The majority of fall accidents happen to people over the age of 60, and with an aging population, this problem is becoming a greater concern to businesses across the country.

In order to stay competitive in the marketplace, you need to protect yourself from unnecessary lawsuits and settlements. In addition to floor finishes, cleaners, traction treatments, absorbent strips and micro-fiber cleaning systems, JohnsonDiversey can assist you with industry-first services such as the Expert Witness™ Program and Slip/Fall Training.

- Same level accidents make up 45% of worker's compensation claims in the U.S. foodservice industry
- Claims average \$4,600 per incident
- The cost for the average foodservice establishment can exceed \$12,000

The JohnsonDiversey S.A.F.E. program offers a variety of benefits, including:

- A reduction in slip and fall accidents
- Lowered labor and cleaning costs
- A cleaner, safer and more organized environment for your customers
- Reduced legal expenses
- Improved environmental conformance
- The full resourcefulness, ingenuity and support of JohnsonDiversey

S.A.F.E. is proof that our objective is to offer superior products and provide a full range of outstanding services that protect our customers and their patrons.

### The JohnsonDiversey Advantage

Beyond clean, we are dedicated to being the best at simplifying the lives of our customers.

We are committed to doing this by:

- Investing the time to listen, understand and respond to customers' unique cleaning and hygiene needs
- Taking a personal interest to ensure the facilities they care for are consistently clean, safe and attractive
- Pursuing innovation in every form likely to make the lives of our customers simpler and more profitable
- Partnering with our customers to exceed their customers' expectations every day, everywhere

# The time for **S.A.F.E.** is now

JohnsonDiversey has lead the floor care industry with innovative spill clean-up and containment solutions. Our latest program — S.A.F.E. (Slip and Fall Elimination) — centers on floor care and is comprised of several new and existing products, tools and services designed to reduce slip and fall accidents and the surrounding liabilities and litigations.

## Products

### COATINGS, SEALERS AND RESTORERS

All JohnsonDiversey floor care coatings, sealers and restorers meet the slip resistance requirements by ASTM D2047. The Consumer Specialty Products Association's Floor Maintenance Division adopted this standard in 1970, and JohnsonDiversey has adhered to this self-imposed benchmark ever since.

### STOP SLIP™ TRACTION TREATMENT

- Mild, acidic, non-corrosive product designed for use on quarry and ceramic tiles
- 3-in-1 formula can be used for traction treatment, daily cleaning and increasing floor slip resistance
- Micro-texturizes floor surfaces without creating soap scum that could result in slippery floors

### BIO-FLOOR™ CLEANER D3-7

A liquid floor cleaner/deodorizer that produces enzymes that remove grease and soil trapped in tile pores and grout. Daily use of this product will remove soil build-ups and make the floor safer.

## Tools

We have also developed several innovative products that lower the cost of cleaning spills while increasing overall safety.

### PACE™ HIGH IMPACT FLOOR CLEANING SYSTEM

- High impact floor cleaning system using microfiber pads to clean and disinfect floors
- Easy-to-use — eliminates need for cumbersome mops and buckets
- Floors dry in minutes — helping to reduce slip and fall accidents

### ZORBA™ ABSORBENT CONTROL STRIP

These strips absorb large amounts of liquid to form a barrier to prevent leaks from running onto the floor. Applications include:

- Containing floor stripper solution
- Absorbing spills for easy clean up
- Preventing chiller cabinet leaks and spills
- Protecting the floor or window sill during window washing

## Services

### EXPERT WITNESS™ PROGRAM

The Expert Witness™ Program is a service that helps customers prepare an effective defense in the event they become involved in litigation due to a slip and fall accident. JohnsonDiversey can assist customers with:

- Initial consultation and case management
- Deposition testimony
- Accident site inspection and evaluation
- Trial testimony
- Affidavits in support of summary judgment motions
- Standards of Care/Reasonable Care assessments
- Consultation and evaluation on new and existing floor surfaces

JohnsonDiversey also provides seminars on Slip/Fall Accident Prevention, which has been utilized successfully by retailers, building service contractors, hospitals, schools, government buildings and insurance companies.

### TRAINING

JohnsonDiversey developed a training curriculum for the S.A.F.E. program, which will provide the information needed to properly maintain floors and reduce slip and fall accidents.

*\$5 billion yearly on  
same level falls*

*Estimated  
\$30 billion for future  
elderly falls*

*\$4,600 per incident in  
Worker's Compensation  
Claims*

*\$12,000 plus per incident  
average for foodservice  
establishments*
