Viewing the Status of an Order

Once **Place Order** has been selected and you have received a **Confirmation Number**, the system has received the order and begins processing. You can see the status of an order by going to the **Order Status** tab.

1. Select **Shop**.
2. Select **Order Status**. The system will present a 3 month history of orders for the location you are shopping for (see the top left-hand corner). There are seven (7) statuses for orders; Ordered, Pending Approval, Pending Date, Rejected, Cancelled, Shipment Received and Invoiced.
 - a. **Ordered** – Normal order processing and sent to supplier for processing
 - b. **Pending Approval** – Order is being held in the system until a manager approves, rejects or modifies the order. Orders are held if a specific business rule is exceeded. I.e. over budget, item limits, etc.
 - c. **Pending Date** – Order is being held and will be released for processing on a future date.
 - d. **Rejected** – The order approver (manager) has rejected the order. It has been cancelled and is not being sent for processing.
 - e. **Cancelled** – The order approver chose to modify the original order. When modify is selected, the original order is cancelled in the system and a new modified order is placed.
 - f. **Shipment Received** – This order has been received, but not completely invoiced yet.
 - g. **Invoiced** – Order has been delivered and all line items have been invoiced.
