## Complete CLEANING

for HEALTH and ENVIRONMENT

# ENVIRO Complete Program

It only makes sense that ABM, one of the largest facility service contractors in the world, would be a leader in the evolving Green movement. Our innovative program called ENVIRO Complete coupled with our total facility services approach enhances our ability to help you reach your Green goals.

ENVIRO Complete allows us to customize our program depending on the level of Green that your facility desires to achieve. Our program goes well beyond cleaning to include recycling, engineering, lighting, and exterior maintenance.

Complete CLEANING

## Complete CLEANING

### Green Cleaning

In an effort to enhance the work environment our ENVIRO Complete program combines Green products with Green procedures to ensure a **safe and efficient work space** for all those who occupy the space.

We use products from JohnsonDiversey that are Green Seal certified. They not only clean effectively but are safe for our employees and yours. Our Green chemicals combined with proper cleaning tools help to:

- **Reduce** airborne particulates
- **Better** indoor air quality
- **Microfiber** wipes and mops
- **Green Seal** approved vacuums

We match the products and tools that our people use with ENVIRO Completes extensive training program that ensure the procedures we are utilizing enhance our goal of creating a **high performing work environment**.

## LEED Certification

If your facilities goal is to earn LEED Certification (LEED-EB) under the U.S. Green Building Council's rating system our ENVIRO Complete program will help you get there.

ENVIRO Complete coupled with our entire facility services capabilities will assist you in achieving the points you will need to reach certification.
