

Disinfectant PRODUCTS

END BAC II™

DISINFECTANT DEODORANT SPRAY

For rapid elimination of germs and odors without wiping.

SAVES YOU TIME & MONEY

✓ Broad Spectrum Activity

Provides broad spectrum kill of gram positive and gram negative bacteria such as *Pseudomonas aeruginosa* and *Escherichia Coli*. Also effective against viruses including Herpes Simplex Type 1 and Influenza A₂ virus.

✓ Fast Acting

Eliminates odors at the source. Kills bacteria such as *Staphylococcus aureus* and *Streptococcus pyogenes*. Inhibits mold and mildew growth on hard, non-porous surfaces.

✓ Tuberculocidal & Herpical

Kills Tb (*mycobacterium tuberculosis*) on environmental surfaces. Effective as a herpical toilet spray. Kills Herpes Simplex Type 2 on hard inanimate surfaces and toilet seats.

✓ Provides Positive Odor Control

Powerful formula eliminates odors at their source. Does not just mask odors.

✓ Versatile

Can be used in hospital patient rooms, emergency rooms, operating rooms, recovery rooms on hard, non-porous surfaces. Can also be used in bathroom & locker room facilities in offices, institutions and food processing plants.

Available in 16 oz. aerosol cans, 12 per case.

END BAC II™ DISINFECTANT DEODORANT SPRAY

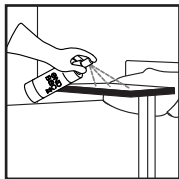

DIRECTIONS FOR USE

1.

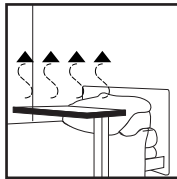

Remove gross filth and heavy soil deposits. Thoroughly clean surfaces or objects prior to application of product.

Avoid use on polished wood, rayon fabrics, or acrylic plastics.

2.

Spray 6 to 10 inches from clean surface for 3-4 seconds or until surface is thoroughly wet.

3.

Allow to dry without wiping or allow spray to contact treated surfaces for a minimum of 10 minutes prior to wiping.

NOTE: To disinfect hard, non-porous surfaces, treated surfaces must remain wet for 10 minutes.

SPECIFICATIONS

Active Ingredients:	0.144% quaternary ammonium chlorides (1700 ppm while surface remains wet)
EPA Reg. No.:	11525-30-70627
Color/Form:	Clear/Aerosol
Fragrance:	Fresh pleasant fragrance
Cleaning Performance:	None. Use after cleaning.
Flash Point:	N/A
Bactericidal Stability:	Minimum 2 years
Discharge Rate:	0.3-0.5 grams/second
Chemical Stability:	Chemically stable from 20°F-120°F
Biodegradability:	Active ingredients readily or inherently biodegradable by OECD standards

HMIS Hazard Ratings:

Health.....	1
Flammability.....	4
Reactivity.....	0

APPLICATIONS

For use on hard non-porous surfaces in home, offices, institutions, and food processing plants. Use on counter tops, chairs, desks, work benches, filing cabinets, wastebaskets, bathroom and locker room facilities. Use in patient rooms, emergency rooms, operating rooms, and recovery rooms.
