

*Together we can create a
safe and healthy work place.*

Our Healthy High Performance Cleaning Program (HHPC) is designed to improve a building's environmental quality and sustainability while ensuring a clean and safe work environment for employees, visitors and maintenance staff.

What HHPC can do for our company:

- Improve employee and occupant health and productivity
- Sustain or improve organizational reputation and brand equity among employees, customers and the surrounding community
- Provide a new opportunity to market and differentiate from competitors

Did **you** KNOW

- Poor air quality costs the U.S. economy **\$60 billion of lost worker productivity** every year, states the EPA.
- Buildings consume **38% of all energy**, use **65% all electricity** and add **40% to atmospheric emissions**.
- Cleaning and maintaining commercial buildings requires **5 billion pounds of chemicals**, **4.5 billion pounds of paper** and **36 billion plastic trash liners**.
